Educational Objectives:

General

The general aims of the school are the same as the church:

1. That each child and his family may grow in the knowledge and love of God.
2. That they may come into the more abundant life in Christ our Savior.

Educational Philosophy:

Early childhood is that magical time when both fact and fantasy can live joyously in the heart of a child, - and so it is a time to be enjoyed and preserved. Yet it is a pivotal time, for what the child hears, sees and does today will greatly influence his tomorrow. It is the time when seeds of positive self-image, self-mastery, and self-discovery may be planted so that they may ripen into the child's future life.

Our school's program is centered on each child's lively and free participation in activities and experiences that rouse curiosity and channel energies, talents, mind and great capacity for living. It is the "drawing out" and not the "drilling in" for we recognize and respect the richness of the inner resources and creative potential of each child. We endeavor to provide for each child a relaxed, warm and loving environment in which physical, social, mental, emotional and spiritual development is nurtured to the fullest and best expression.

Admission/Enrollment:

1. Enrollment for the upcoming school year will be opened in January for the children of church members and the children currently attending the school.
2. On the first two school days in February, enrollment for the upcoming school year will open to families who have previously had children in the school.

3. Other children will be accepted (or if enrollment is filled, a waiting list will be kept) on a first come, first served basis in the order in which application is made.
4. In the school year preceding entrance, the child and a parent (or legal guardian) must visit the school.
5. Registration is not complete until the director receives the Registration Form and Fee.

Waitlist

Waitlist/Registration: Names will be placed on the waiting list in the order that inquiries are made throughout the school. A parent or guardian must furnish the name, birthday, address and telephone number to be placed on the list.

School Priorities/Non-discrimination Policy

The school reserves the right to accept or reject any applicant and to determine a child's continuing acceptability. **No child will be rejected on the basis of race, color, creed, sex, national origin, handicapping condition, ancestry, or if a child is being breastfed.**

If, after observing a child in the school, it is determined that this school setting is not the proper environment for that child, a conference will be called to discuss the different options. The school does reserve the right to enroll children to plan for balanced classes.

If it becomes necessary to withdraw your child from the school, a conference with the director and a month's notice are required. The family may still be responsible for the remainder of the year's tuition.

School Closures

1. Lakeview Presbyterian Weekday School is closed on certain days for events please check your provided calendar for dates and events.
2. Lakeview Presbyterian Weekday School is closed any time Edward Hynes Charter School deems it necessary to close **due to bad weather or other emergencies.** WWL (870 AM) will be the official broadcaster of school closures along with our facebook page.

Licensing/Complaint

Lakeview Presbyterian Weekday School is licensed by the Louisiana Department Education. The school has a Type I license.

For information regarding licenses or to file a complaint, the Department address is

Department of Education, Division of Education, Post Office Box 4249, Baton Rouge LA 70821.

The website is www.louisianabelieves.com

The telephone number is (225) 342-9905.

Our license is #488.

Transportation

The school provides no transportation.

Each child must have a signed Transportation form on file. The school requires signed permission to be on file for a child to be picked up by any person other than the parents. This form is kept up front in binder where you may add names if needed.

Mid-Morning Snacks

A mid-morning snack of water or juice and crackers and cookies is served to each child. Once each week a child in the class will bring snack to share with the class. The teacher will let you know when it is your child's turn what snack is needed, and how many to provide.

Afternoon Snacks

Children who stay until 4:00 will be served a snack after rest. Milk will be offered at this time.

Parties

Birthday parties may be given at school with the cooperation of parents and teachers. Plans should be made in advance. Each child will celebrate his/her birthday at school with a special snack brought from home. The child will be the "special helper" on that day and have a crown to wear. The teacher will plan with the parents for the best day to celebrate. Summer birthdays are celebrated with planning during the school year or during camp.

Due to the personal nature of gifts, it is believed that the children are happier if NO gifts are exchanged at school. Invitations to private parties will be handed out at school only if the entire class is invited.

Please remember that children will talk about their parties at school, and those who have been excluded will have their feelings hurt. For this reason, we ask not to plan parties right after school unless the whole class is invited.

School Requirements:

All children must bring an extra full set of clothes, including a sweater, to be kept at school. All clothing should be labeled with your child's name. This will give your child a sense of security in the event of accidents.

Potty training Policy

In addition, children who wear diapers (1 & 2 year old's) should bring diapers and wipes to be stored at school. In the 2 year old rooms we will work with children on potty training only after they have been at home for 7 days with no accidents. If we have to assist by way of touching the child's body during pottying they are not considered potty trained and will need to be kept at home for further training. No pull-ups are allowed during school hours during nap they can be sent for your child to sleep in.

3 & 4 year old student's will be potty trained completely. They must be capable of pulling up and down their own pants and undergarments.

*After 3 accidents in 1 week we will ask that you keep the child home for 5 days to further their potty training.

One year old's may also bring bottles, pacifiers and/or "loveys".

Clothing

Comfortable play clothes permit freedom to participate fully in all artwork, large muscle play, etc.

Clothing which the children can handle alone helps give him/her a sense of independence. Buttons on shoulders, hard snaps, all-in -one suits, wide belts with large buckles are all hard for little fingers to manage.

The school recommends that the children **not wear sandals, crocs, clogs, cowboy boots, long dresses or body suits.** Belts should be worn only when necessary.

Parent conferences

In the fall & spring, the school will close for individual family conferences.

(Please check your calendars).

LPWS has informational books and parenting magazines available to all parents.

Suggestions for Parents:

- a. Talk positively about school as a happy place.
- b. Show interest in your child's work. Let your child know that you are interested in their school activities by showing appreciation and approval of efforts.
- c. Let your child volunteer information about the school rather than questioning.
- d. Share any unusual situations at home with the school with the school.
- e. Mark all your child's possessions for easy identification.
- f. Discourage your child from bringing toys to school. Children are, however, invited to bring and share their scientific discoveries or a book, recording or picture pertaining to the weekly emphasis.
- g. Please check all pockets, lunch boxes and bags for small toys or puzzle pieces belonging to the school. When we lose small pieces, we sometimes have to discard the whole toy.

Learning Opportunities

The school provides learning opportunities for 1,2,3,4 and 5-year-old children based on our knowledge and understanding of child growth and learning.

Recognizing that "play is the business of children", we employ the learning center approach. This helps to develop both the child's independence and self-discipline, allows for individual choice, stimulates his curiosity and self-expression- all at his own pace and level of understanding.

The Learning Centers include:

Block Center- imaginative, cooperative play and experiments with shapes, sizes, balance and numbers take place.

Housekeeping or Home Life Center- the reenactment of everyday home-life experiences occurs.

Art Center- easel painting, play dough, and other art media are offered for the child's individual free and creative use.

Educational Toy Center- development of small muscles, eye-hand coordination, basic concepts, and cognitive learning are the focal points.

Quiet Corner- a child can enjoy books and be by himself if he wants to be.

Science Center- a child can learn through "hands-on" experience with his/her world.

Other Activities

Integrated into this learning environment are basic science projects, experiences in music with recordings, rhythm instruments and singing, group activities with discussion, stories, finger plays, audio-visuals, and cooking.

Outdoor activities on a well-equipped play yard help to develop large muscle coordination.

Each week's activities are planned around a special theme of emphasis- such as home and family, pets, community helpers, transportation, etc. Books, puzzles, pictures, recordings, songs and toys are all coordinated with the

weekly emphasis.

Within the framework of freedom with necessary limits, the planning is flexible and the routine of each day is properly balanced between quiet and active.

Explorations that the children make in such a child-oriented world are the foundations for academic learning.

Age appropriate readiness skills are offered throughout all areas of the curriculum. These skills are acquired through a variety of activities and games, which allow the child to learn through play. Activities are designed to meet individual needs and developmental stages. The program provides for large group, small group, and individual activities and learning experiences.

Fever must be gone 24 hours without fever reducers such as Tylenol or Motrin.**

3. In case of illness, please notify the director promptly as to the nature of the illness so that other parents may be notified of any exposure, if necessary.

*****No medicine will be administered without the written consent of the parent or guardian.** If it is necessary to send medicine to school, please bring a doctor's prescription, and a consent form to the director. **Medicine should not be sent in lunch boxes or backpacks. It must be brought to the office and a medical form must be completed.**

Children with the following illnesses or symptoms shall be excluded from the school based on potential contagiousness (communicability) of the disease. Periods may be extended beyond this depending upon individual conditions.

With most other illnesses, children have either already exposed others before becoming obviously ill (i.e. strep throat, conjunctivitis, impetigo, ringworm, parasites, headliceandscabies). **These will be on a day to day basis on returning and it will be up to LPWS staff/director if your child can stay.**

The parent or designated person shall be notified and the incident documented if:

- a. a child develops symptoms of illness
- b. a child suffers a serious accident

All head injuries will be reported to parents immediately.

An accident report shall be maintained detailing accident/incident of child and actions taken by the staff/director. Parents will have to sign these reports.

Emergency Procedures

LPWS has multiple emergency procedures in place and completes drills throughout the year. Please rest assured that we as faculty and staff have gone over all scenarios and are prepared for what we can be prepared. We have an evacuation plan that is on display out front and in the Director's office. If you would like more information please speak with the director.

In the event that a child is ill or injured, and contact with his/her parents or guardians is not immediately possible, the school will send the child by whatever means it deems appropriate at the time to whatever medical facility seems appropriate. The parent or guardian confirms all actions taken and decisions made by LPWS pursuant to this authority and agrees to be bound for all expenses thus incurred, as if the parent or guardian had incurred the same. The purpose hereof is to appoint said school as the agent of the parent or guardian to authorize the occurring of such expenses.

The parent of guardian further releases and discharges and agrees to indemnify and hold harmless LPWS from any injuries and/or damages and claims or causes of action which arise resulting from the medical treatment afforded or lack thereof.

Parent Relations/Access Policy

The school staff wishes to be closely associated with the parents and families of each child so that we may better understand and guide progress. Fall conference and open house, Christmas parties, spring conference, spaghetti dinner and end of the year school picnic are activities in which parents and LPWS staff work together.

Custodial parents and guardians are always welcome in the school. However, we ask that you please remember that your presence is distracting to the children and try to remain as "invisible" as possible. *Non-custodial parents will not be allowed to visit without the written permission of the custodial parent. Visits are defined as anytime a non-custodial parent walks past the front foyer of the school. Non-custodial parents with pick-up privileges are meet at front door and the child is brought up front to him/her. Court documents must be on file in the director's office stating details of arrangements.*

We encourage parents to consult with the teacher and/or director of LPWS concerning any problems that may occur. The lines of communication are open at all times.

There are many occasions when parent help is needed for events such as Christmas projects, special parties, etc. Let us know your special talents, such as sewing, music, building, etc. Let us know, too, if you have materials that may be shared with the children- such as items from other countries. If your career is such that you may be classified as a "community helper", please schedule a time and share your work with your child's class.

How Children Learn

Given materials, space and time, a child will learn a great deal by himself. The learning a child does as a result of his own activity will stay with him far longer than that which is transmitted to him verbally.

Experiments reveal that the learner will retain:

10% of what he reads

20% of what he hears

30% of what he sees

50% of what he sees and hears

70% of what he says in conversation

90% of what he says in conversation during an activity

It is obvious, therefore, that the staying power is in what a child is encouraged to say in his own way.

-----Dorothy B. Fritz

"Give your child room to reach, something to reach for, and the self-confidence that he can reach --- and with God's help, he will be ready for living each day to his fullest potential."

-----L.W.B.
